

PRIVACY POLICY

Diamond Technologies Inc. (“DiamondIT”) is committed to protecting your personal information while providing you access to the features offered on our website and other services. The purpose of this privacy policy is to inform you about the kinds of information we collect and how it may be used. Should we revise our privacy policy, we will post those changes here so that you will always know what information we gather, how we might use that information, and whether we will disclose it to anyone.

Information Collection and Use: To enable us to provide you with the best possible service, collection of certain information may be necessary. In general, our service automatically gathers certain usage information like the numbers and frequency of visitors to DiamondIT.pro. We automatically record your IP address so we can establish a broad understanding of site traffic patterns, assist in diagnosing server problems and perform site administration.

Unfortunately, due to the nature of the Internet, no data transmission using the Internet can be guaranteed to be 100% secure. As a result, while we strive to protect your and your company’s personally identifiable information, DiamondIT cannot ensure or warrant the security of any information you transmit to us or from our online products or services, and you do so at your own risk. DiamondIT is not responsible for the ways in which customers and third parties use DiamondIT’s products and services.

Personal Information: In order to furnish information regarding career opportunities, becoming a partner, becoming a customer, or an employee, we will be requesting personally identifiable information from you, such as address, telephone number, email address, and a variety of other information needed in the course of billing and providing products and service to you. DiamondIT uses this information to anticipate and resolve problems with your service, to create and inform you of products and services that better meet your needs, or to send confirmation notices when you request information or services from us. This means that DiamondIT may use your personally identifiable information, in conjunction with information available from other sources, to market new services to you that we think will be of interest to you. We will not, however, disclose your or your company’s personally identifiable information to third parties who want to market products to you. DiamondIT neither markets our site to children nor collects personally identifiable information about children on our site. While we have established multiple security measures to protect against the loss, misuse or alteration of any information under our control, we cannot accept liability for any breach of such security measures by third parties.

If you are uncomfortable with transmitting your contact information over the Internet, you may contact us via the telephone numbers listed on the Contact page or via email at: support@DiamondIT.pro.

Cookies: DiamondIT also uses “cookies” to gather information as you navigate through the site. Cookies are pieces of information that a web site transfers to your computer’s hard disk for record-keeping purposes. This helps us tailor and improve the information we present to you, promoting higher customer satisfaction when you visit our site. The use of cookies is common in the Internet industry, and many major web sites use them to provide useful features to their customers. The cookie itself does not contain any personally identifying information, other than user name, but may be used to tell when your computer has contacted our website. DiamondIT does not use cookies to retrieve information from your computer that was not originally sent in the cookie, and we do not use information transferred through

cookies for any promotional or marketing purposes, nor is that information shared with any third party whatsoever. DiamondIT uses the information for editorial purposes and for other general, non-identifying purposes such as delivery of features and advertisements. This way DiamondIT can customize delivery of information specific to your interests without compromising privacy. For example, cookies may be used to personalize your experience with DiamondIT.

Disclosure: DiamondIT will not sell, trade, or rent your or your company's personally identifiable information to anyone outside of DiamondIT unless authorized by you or your company, or as required by law, such disclosure is required to protect the safety of employees, customers or property, or such information is assigned or transferred in connection with the sale, merger, reorganization or consolidation of the assets or capital stock of DiamondIT. When DiamondIT uses other agents, contractors or companies to perform services on its behalf, DiamondIT will require that such company protects your personally identifiable information consistent with this policy.

Improper Conduct: DiamondIT may also use your or your company's personally identifiable information to investigate and help prevent potentially unlawful activity or activity that threatens the network or otherwise violates the customer agreement for that service.

Online Surveys & Emails: DiamondIT values opinions and comments from its customers, so from time to time we may conduct online surveys. These surveys are entirely optional for all clients. Typically, the information is aggregated and used to make improvements to DiamondIT's website and to develop attractive service features and promotions. Survey participants are anonymous unless otherwise stated in the survey.

DiamondIT may use email to respond to inquiries, confirm information, or contact partners and clients. These transaction-based emails are not considered spam, and are sometimes automatically generated. Anytime a client or visitor receives email it does not want from DiamondIT, other than transaction based emails, the visitor can request that DiamondIT not send further email by contacting us via email at: support@DiamondIT.pro.

Links & Ads: Please note that our web site contains links to other sites. While we try to link only to sites and services that share our high standards and respect for privacy, please understand that we are not responsible for the content of, or the privacy practices employed by, other companies or websites. Mention of non-DiamondIT products or services is for information purposes only and constitutes neither an endorsement nor a recommendation.

YOUR ACCEPTANCE OF THESE TERMS: By using this site and our services, you signify your acceptance of the terms of the DiamondIT privacy policy. If you do not agree to the terms of this privacy policy, you may not use this website. Your continued use of our web site following the posting of changes to these terms will mean that you accept those changes.
